PROFILE

Frontend Developer | MBA & BCA | Expertise in Vue.js, React.js, Python, and MySQL. Proficient in API integration, UI/UX design, and database management. Passionate about building scalable, user-centric web applications and solving complex technical challenges. Skilled in crafting responsive, high-performance solutions with modern frameworks and tools.

PROFESSIONAL EXPERIENCE

Shopify Frontend Developer Intern   Oct 2024 – Feb 2025
Toolitup   Coimbatore, Tamilnadu
- Developed a SaaS-based Shopify widget using **HTML, CSS, JS**, and **Polaris** for admin UI, enabling merchants to customize widget UI (color, font, size) for storefront UX, dynamically reflected on the cart page.
- Built a **Shopify Theme App Extension** using **Remix**, rigorously tested with manual test cases to ensure seamless, engaging, occasion-based shopping experiences.

Full Stack Developer Intern   May 2024 – Aug 2024
nStore Retech Private Limited   Chennai, Tamilnadu
- Developed a **Settlement Download Page** frontend module using **Vue.js** to fetch and transmit JSON data of **IRCTC settlements** from a **MySQL server**.
- Built a **Python solution** to locate **nStore positions** at each station on the **IRCTC e-catering website**, processing and saving the data as a **CSV report**.
- Resolved **HRMS Portal** database issues after upgrading **MySQL (5.0 to 8.0.36)**, fixing functionality errors using **PHP 7.4.33**.

EDUCATION

Master of Business Administration   Nov 2021 – Apr 2023
SNS B-Spine   Coimbatore, Tamilnadu
- **Stream:** Human Resource Management, Data Analytics

Bachelor of Computer Application   Apr 2018 – Sep 2021
The American College.   Madurai, Tamilnadu

SKILLS

- HTML5
- React.js
- Python
- CSS3
- RESTful APIs
- MySql
- Bootstrap & Tailwind CSS
- Figma & UI Design
- JavaScript (ES6+)
- Git & GitHub

PROJECTS

Image Explorer – Pixabay API Integration 🔗
- **Technologies Used:** React.js, Tailwind CSS, Pixabay API
- Developed a **React-based image search application** using the **Pixabay API**.

Custom Video Player 🔗
- **Technologies Used:** Html, css, Js, Reactjs, Material UI
- A custom video player application built with React, utilizing packages like **React-Player** for seamless video playback.

Responsive Weather App 🔗
- **Technologies Used:** HTML, CSS, JavaScript, OpenWeather API
- Developed a **real-time weather application** that fetches weather data based on the **city name entered by the user**.
